Experience Summary

I am associated with TCS for the last 26 years and 9 months. My business and industry strengths are in Retail, E-commerce, Insurance, Banking & Finance, Manufacturing and Securities/Financials. My specializations are in Portfolio/Domain Management, Big Transformational Program Management, Service Delivery/Project Management, Solution Development and Strategy, complemented by effective communication, interpersonal, negotiation skills. I have proven record of accomplishment, leading complex programs and projects that drives organizational Growth and Transformation in the era of digital disruption. I am expert in delivering big Digital Transformational programs in a collaborative global team model both in Agile and in traditional waterfall methodologies. I do possess good leadership, analytical, organizational and problem solving capabilities; proficient at creating and improving governance, processes, workflows, and a quick learner as well.

Received appreciation of TUL CIO in QBR for improved performance of transformed model. ➤ Best Team award for excellent coordinated effort during peak sale, causing zero high priority incident ➤ On-the Spot award for successful execution of external ISO audit with zero non-compliances ➤ Organized Hackathon & Ideathon in TUL Landscape

Assignment# 8:

Account	Ahold Delhaize
Project Name	Cloud Migration – Program Manager Integration Development Competency Center – Domain Manager
Period	Jul 2017 – Jul 2020
Team Size	110+
Project Details	Ahold Delhaize is one of the largest food retail groups in Netherlands, a leader in supermarkets and e-commerce, and a company at the forefront of sustainable retailing. Ahold Delhaize's international headquarters is in Zaandam, the Netherlands. TCS is Application Development (AD) & Application Maintenance Support (AMS) partner for Ahold. While the Application Development is primarily being executed from TCS Kolkata, AMS part is being executed from Chennai. TCS is primarily taking care of 3 brands based in Netherlands – Albert Heijn (A food retail shop chain), ETOS (Drugstore), Gall & Gall (leading Wine and Liquor retailer) I have worked in two areas simultaneously: Cloud Migration (as a Delivery Manager): Ahold Delhaize had a vision to migrate 170+ applications in Cloud by 2021 Dec. Towards that, first phase migration kicked off with 74 applications in Feb 2019. This was a combination of Technical migration & Re-hosting. Majority of these applications are business critical, high visibility and latency sensitive. Integration Domain (as a Domain Delivery Manager): Integration Domain is operating as a competency centre for Integration technologies: API Mulesoft, webMethods, Oracle Fusion Middleware. All teams are working in distributed DevOps way.
Roles	○ Program Manager for Ahold strategic Transformation program – Cloud Migration (IAAS migration from On-premises to Microsoft Azure) ○ Domain Delivery Manager for Integration Delivery (Application Development & Application Maintenance Support)
Responsibilities	As a Domain Manager for Integration area, my responsibilities were: ➤ Set up Integration Competency Centre for application development ➤ Liaise with RMG, Network, Quality, DEG and all other support groups towards Domain set-up ➤ Define Program/Delivery Governance for effective monitoring and timely actions as required. ➤ Implement Agile Scrum and Kanban delivery methodologies ➤ DevOps transformation for Integration team ➤ Quality assurance and Quality control of deliverables ➤ Status Reporting and Management Reports. ➤ Participate in review meetings with PO/SMs. ➤ Accountable for delivery of Programs and Support teams under Integration portfolio. ➤ PMR / Audit participation and representation from project. ➤ Appraisals and performance monitoring for Team members and Project Leads. ➤ Work as SPOC for Innovation (Proactive Improvements) in Ahold Landscape. As a Program Manager for Cloud Migration, my responsibilities were: ➤ Form delivery team on close collaboration with CMA, QE, Retail RMG ➤ Planning scope, schedule ➤ Set up Governance, Quality Assurance, Quality Control, Review mechanisms ➤ Stakeholder management ➤ Risk, Issue, Dependency, Action management ➤ Periodic delivery review

TATA CONSULTANCY SERVICES

	➤ Communication management ➤ Manage program budget & Billing vitals. ➤ Change Management ➤ In-take, appraisal, release management
Technology	Integration : Mulesoft, webMethods, Oracle Fusion Middleware, Kafka Cloud Migration : Azure IAAS, Ansible, AKS, Control-M
Location	Kolkata (Offshore) & Zaandam, Netherlands (On-Site)
Software (Package)	Integration Softwares - API Mulesoft - WebMethod - Oracle Fusion Middleware (SOA, OSB, ODI) - KAFKA Cloud Migration - Azure - Ansible
Achievements	➤ Built high performing Integration Team from scratch. Acquired 96.1% CSS ➤ Awarded Best Auditor of the Quarter ➤ Successful set up of IDCC (Integration Development Competency Center) for Ahold ➤ Distributed DevOps implementation in Integration area. ➤ Held first Ideathon drive in Ahold landscape within TCS.

Assignment# 7:

Account	Kingfisher IT Services Ltd
